

Last updated on 10/6/2008

Compact fluorescent light bulbs (CFLs) are energy efficient and cost effective lighting alternative to regular incandescent light bulbs. A compact fluorescent light bulb fits in a regular light bulb socket or can be plugged into a small lighting fixture.

### **1. Home Depot Stores**

All Home Depots will take unbroken compact fluorescent bulbs from homeowners. Take them to the return service desk.

### **2. Ace Hardware Stores**

There are a select number of Ace Hardware stores in Utah to serve as a free collection point for homeowners that encourages all fluorescent-light users to drop off spent tubes – free – at selected stores. This is only good until the end of the year. The six participating Ace Hardware store locations are:

- Salt Lake City: 3939 Wastach and 612 East 400 South
- St. George: 160 N. Bluff Street
- Cedar City: 165 South Main Street
- North Salt Lake: 1075 North 500 East
- Tremonton: 250 East Main Street

### **3. Salt Lake County Libraries - Recycle Fluorescent Lights**

#### **The following libraries accept Fluorescent bulbs - both long and short**

- Whitmore Library  
2197 East Ft Union Blvd  
Salt Lake City
